- A national service network and service manuals for our extensive product offering.

PREMIER ENCLOSED TRAY CART

APPLICATION

The Alluserv Enclosed Tray Cart is ideal for any tray delivery operation. This unit is designed for easy maneuvering and cleaning, making your operation as simple as possible.

CONSTRUCTION

The tray cart is constructed of 304 stainless steel welded and riveted construction to accommodate 14"x18" or 15"x20" trays. The top and base are constructed of 16-gauge stainless steel and the sides and back are 20-gauge stainless steel. The doors are made of 18-gauge stainless steel with insulated double pan design. Two 3" heavy duty hinges allow the door to swing 270° for full access to tray compartments. The doors easily remove for cleaning by lifting the doors off of the hinges or can be held open by hold open catches. The tray ledges are made of 16-gauge stainless steel welded to a 14-gauge stainless steel frame panel with 5" spacing between each other. The compartments have vents on the end panels and the floors have a perforated center drain. The exterior base has bumpers on each corner that are 1-1/4" thick. The rubber coated vertical handles are recessed on both ends of the unit. The unit has four 6" casters, two swivel and two with brakes. The swivel casters feature shielded ball bearing races and zerkl fitting for lubrication of swivel bearings. Unit is NSF listed.

Premier Enclosed Tray Cart
