- A national service network and service manuals for our extensive product offering.

HOT FOOD COUNTER

APPLICATION

The Evolution Series counters can support any tray line layout and are versatile enough to use in any format.

CONSTRUCTION

The hot food counter is constructed of heavy-duty gauge stainless steel and has heavy-duty gauge stainless steel countertops as standard as well as a stainless steel under shelf. The front panels will be easily removable and replaceable allowing front service access. The counter will contain the hot wells in 240 or 208 volt single phase electric. The body will be reinforced with galvanized steel channel supports.

Options

- Protector guards
- Tray slide
 - Three tube tray slide
 - Stainless steel flat tray slide
 - Stainless steel "V" tray slide
- Infra-red heat lamp with lights
- Drop down work shelf
- Hinged door
- Heated storage compartment
- Door locks
- Flush mounted duplex outlet
- Stainless steel legs in lieu of casters

Warranty

- One year parts and labor

Evolution Series

Hot Food Counter

COUNTERTOP

The top will be 32 1/2" wide and made-up a heavy gauge stainless steel with square turndown on all sides and corners fully-welded, ground and polished.

CASTERS

The unit is mounted on 5" ball bearing, swivel type casters with brakes on all wheels. The casters will be mounted through two stainless steel channels for extra rigidity.

STORAGE COMPARTMENT

Storage compartment is made of 18-gauge stainless steel. The liner will have covered corners and removable top panels to allow for service access.
